B2B INJECTION MOULDING

INJECTION MOULDING

WHAT WE DO

Concept to Manufacture

If you have a product idea but don't know how to make it then we can assist in taking concepts through the necessary stages to full production.

B2B injection Moulding Ltd provide our customers with the following services:

- Competitively priced moulded plastic products
- Precision parts from 1 to 450g in almost any plastic material
- A fast, reliable, friendly service aligned to customer needs
- Short or long production runs on either an ongoing or temporary basis
- Components from existing tooling transferred to us
- New tooling procurement

Injection Moulding its what we do best

We work closely with several UK and Chinese partner companies in order to improve our services for our customers. Working with these partners means we can offer:

- Fully hardened production tooling
- Low cost tooling for small volume production
- Rapid prototype tooling
- Advice on cost effective tooling design
